

Còmplices de la Creació with FiraTàrrrega

Còmplices de la Creació (Accomplices of Creation) is an initiative of the Support for Creation program that aims to generate alliances and synergies with other organisations, so that artistic projects can benefit from the best conditions in their creative process and in its dissemination into the national and international market.

Who can be an Accomplice of Creation?

Those professionals, organisations, venues and institutions interested in contributing either with finance, in-kind benefits and/or knowledge, to endow the projects included in the Support for Creation program with solidity and sustainability. This complicity has two modalities:

Options (concurrent or otherwise)

- Support of the project with meetings during the creation process (online or in person) and attendance at open rehearsals.
- Participation in market meetings to provide knowledge and professional contacts.
- (If a residency space is offered) Free assignment of residency spaces (preferably with accommodation and per diems offered by the co-producer).
